**GROUP AFFILIATION:** LEUCISTIC ALLIGATORS**AGE:** 30 YEARS OLD**LOCATION:** WHITE GATOR SWAMP**LENGTH:** 12+ FEET**WEIGHT:** OVER 700 POUNDS

Jeyan ain't as big as Feros, but he still measures over 12' long and 700 pounds. This is still mighty respectable for a gator, cause when it comes to alligators, size does matter. But unlike Feros, Jeyan is kinda shy and quiet. In fact, he's a bit of a "scardy cat," which ain't befitting of an alligator. Oh sure, he'll hiss and snort at you now and then, but most of the time he just swims into the water and tries to hide. And that ain't easy for a giant white gator.

**Did You Know:**

Leucistic alligators are one of the rarest types of gators. There are only about 12 blue-eyed, leucistic alligators in the entire world.
